

Invitation to Submit a Request for Proposal (RFP)

Subject: Integrated Real Estate Transparency Platform

Dubai Land Department invites interested parties to submit a proposal in accordance with the attached RFP.

Important Dates

Activity	Deadline
Releasing of RFP	22-04-2026
Deadline for receiving the queries	28-04-2026
Answering the queries	05-05-2026
Submission of the Proposal (Closing date)	14-05-2026

We look forward to receiving your proposal.

1. Introduction

(To be completed by the requesting department)

The Dubai Land Department (DLD) hereby issues this Request for Proposal (RFP) for the design, development, deployment, maintenance, and post-go-live support of the Integrated Real Estate Transparency Platform (IRETP). The primary strategic objective is to advance Dubai's standing in the JLL Global Real Estate Transparency Index (GRETl) and to reinforce investor confidence among international financial institutions, sovereign wealth funds, and global investors.

The platform directly supports the Dubai Economic Agenda D33 and the Smart Dubai Strategy by providing open, accurate, real-time, and interactive real estate data to the public while equipping DLD leadership with powerful internal risk management and developer oversight tools.

General Introduction

Dubai Land Department is a government entity falls under the umbrella of the Dubai Executive Council responsible for registering, regulating properties, promoting real estate investment and settlement of rent disputes. In addition, the dept. is responsible to educate and raise the awareness of real estate stakeholders. Dubai Land Department provides a comprehensive range of real estate services, most notably the responsibility of overlooking sales transactions, regulations, and registration of all transactions in real estate market. Playing a significant role in the necessary improvement processes to accelerate Dubai's real estate sector.

1.1 Dubai Land Department

Dubai Land Department operates under the authorities stipulated in the following laws:

- Law No. 7 of 2013 – Regarding the Dubai Land Department.
- Law No. (4) of 2019 – Regarding the Real Estate Regulatory Agency.

In consideration of the above-mentioned laws, the main objectives of Dubai Land Department are:

- Achieving the government's strategic objectives in the real estate sector in full.
- Keeping pace with the latest global real estate registration systems.
- Enhancing the efficiency of real estate regulation and oversight in the Emirate.
- Managing and developing the real estate leasing sector in the Emirate.
- Continuously updating and developing the real estate registration system in line with the latest global systems.
- Encouraging investment in the real estate sector by creating a distinguished environment for investors.
- Enhancing the contribution of the real estate sector to the comprehensive development of the Emirate.
- Planning and developing an integrated strategy for real estate development within the Emirate to achieve excellence at the international level.

For more details about DLD Laws & Regulations of Dubai Land Department, please visit our website www.dubailand.gov.ae

1.2 Nature of Work and Classification of Customers:

Dubai Land Department has the following main operational and business sectors:

- **Real Estate Registration Sector:** This sector specializes in developing and updating the Department's systems and procedures, ensuring accurate documentation of all real estate transactions, auditing all completed real estate transactions, managing the real estate valuation system, in addition to its role in developing and updating systems and procedures related to rental affairs (Ejari system), ensuring the documentation of all rental transactions, and other related tasks.
- **Real Estate Regulatory Agency (RERA):** RERA specializes in managing the real estate licensing system, real estate training system, disseminating real estate knowledge, organizing and managing escrow accounts for real estate development, monitoring and supervising them, setting standards, principles, and conditions governing owners' associations and jointly owned property management companies, and ensuring the preparation of the special register for jointly owned properties. In addition, it audits owners' association operations, handles investor inquiries and complaints related to owners' committees or related entities, takes necessary actions, and develops and manages the real estate oversight system, among others.
- **Corporate Support Sector:** The Corporate Support Sector includes all supporting activities such as talent acquisition, development and training, performance management, contract and asset management, administrative support and assistance, preparation of financial budgets, development of marketing and communication strategies, corporate identity development, preparation of the digital transformation strategy, provision of secure infrastructure, and technical support.

1.3 DLD Key Services:

The Key services provided by DLD are:

- Jointly owned property services
- Real estate development services
- Real estate leasing services
- Real estate residency services
- Real estate transaction services
- Real estate ownership data services

2. Scope of Work

The selected vendor shall design, develop, integrate, and deploy an end-to-end Integrated Real Estate Transparency Platform for Dubai Land Department, comprising a public investor-facing portal and an internal management system. The scope includes delivering real-time data visualization, GIS mapping, self-service analytics, open data APIs, and an AI-powered data assistant (non-advisory), alongside internal capabilities such as an Early Warning Risk System, escrow monitoring, and a developer performance rating engine. The vendor shall ensure full integration with DLD's existing data ecosystem, maintain high data accuracy and governance standards, implement a secure and scalable architecture compliant with UAE regulations, and deliver the solution in phased releases within the defined timeline, followed by post-go-live warranty and technical support.

2.1 Key Deliverables

Based on the scope of work, below is a summary table of the key deliverables (including but not limited to):
(To be completed by the requesting department)

Section	List of main deliverables	Indicative Timelines
Phase 1	External Public Portal	One month
Phase 2	Early Warning Risk System (EWRS)	One month
Phase 3	Developer Performance & Rating	One month
Phase 4	Extended Languages for the External Portal	One month

3. Evaluation

Evaluation Weight: 70% Technical Requirements | 30% Budget & Total Cost of Ownership Proposals that do not meet the minimum technical score threshold will not proceed to financial evaluation. The highest-ranked proposal on the combined weighted score will be recommended for contract award, subject to DLD's internal governance approvals.

3.1 Evaluation criteria

Proposals will be evaluated based on the submitted technical and financial proposals. The weight of the technical and financial proposals will be as follows:

3.2 Technical Evaluation (70%)

The Technical proposal shall be evaluated based on the following:

Technical Evaluation Criterion	Weight (of 70%)	Evaluation Method
Proposed Technical Solution: quality and appropriateness of the proposed technology stack, architecture design, hosting model, AI model approach, scalability strategy, and overall alignment with the functional and non-functional requirements of this RFP. This criterion specifically includes evaluation of how well the vendor's proposed architecture aligns with DLD's existing Microsoft Fabric ecosystem (Section 11.4) — proposals demonstrating strong alignment and a clear Architecture Integration Map will be scored more favourably. For the External Public Portal, the quality of the visualisation layer comparative analysis (Section 11.4.2) will also be evaluated.	25%	Technical review panel evaluation + Architecture Q&A session with the vendor's technical team
Data Understanding & Accuracy Methodology: credibility, depth, and practicality of the proposed DLD data familiarisation plan, analytics assessment methodology, and ongoing data accuracy monitoring framework. Given the critical importance of data accuracy to this project, this criterion carries significant weight.	20%	Data methodology review panel + evaluation of the mandatory data integration case study
Security & Compliance Approach: completeness and credibility of the security plan including DESC ISR v3 compliance roadmap, VAPT scheduling, SOC provider selection, and ISO 27001 certification pathway.	10%	Security review panel evaluation
Relevant Experience & Demonstrated Capability: quality of the project portfolio, relevance of prior work to this RFP's scope, and strength of the AI system demonstration.	10%	Portfolio review + reference checks (minimum 2 client references contacted by DLD)
Warranty & Technical Support Plan: credibility and completeness of the 12-month warranty offer, SLA commitments, support team structure, data accuracy monitoring plan, and AI Agent knowledge update approach.	5%	Support plan review panel
TOTAL TECHNICAL SCORE		
Minimum threshold to proceed to financial evaluation: 70 out of 100 on the combined technical sub-criteria.	70%	

3.3 Financial Evaluation (30%)

Financial Evaluation Criterion	Weight (of 30%)	Evaluation Method
Total Cost of Ownership (5-Year): the combined total of infrastructure setup CAPEX (Section 14.1), licence and subscription costs (Section 14.2), implementation CAPEX across all four phases (Section 14.3), and five years of annual recurring OPEX (Section 14.4). The proposal offering the best value for money on a 5-year TCO basis will score highest.	20%	Financial evaluation committee using a standard 5-year TCO model applied consistently across all proposals
Pricing Transparency & Completeness: the degree to which all cost tables are fully and accurately completed with no missing items, bundling of line items, or ambiguous entries. Proposals with clearly itemised, justified costs will score higher than those with opaque or bundled pricing.	10%	Financial review of all four cost tables in the proposal
TOTAL FINANCIAL SCORE		
	30%	

4. Tender Conditions

4.1 Definitions

The terms “Bidders” and “Service Provider,” as used in this RFP document, mean the individual(s) or company(ies) to whom the invitation letter for the Request for Proposal is addressed.

4.2 Ownership of the RFP

This Request for Proposal shall remain the property of Dubai Land Department and is sent to the bidder solely for the purpose of preparing and submitting a proposal accordingly. Bidders must maintain the confidentiality of the RFP and may not disclose it to any third party for any purpose other than obtaining quotations directly related to their proposal.

4.3 Confidentiality Statement

- All information contained in this document or shared with the recipient as part of the briefing process is considered strictly confidential. Accordingly, the recipient may not disclose this document or any attachments, in whole or in part, to any third party without prior written approval from Dubai Land Department.
- The recipient also acknowledges that the information shared herein constitutes the intellectual property

of Dubai Land Department and is subject to non-disclosure agreements as recognized under copyright and intellectual property protection regulations.

4.4 Intellectual Property

The bidder acknowledges that all deliverables, results, works, documents, data, reports, designs, and materials, of whatever type or form, prepared, developed, or submitted under this Request and any resulting purchase order, shall be the exclusive intellectual property of Dubai Land Department.

The bidder shall have no right to use, reproduce, publish, or dispose of them in whole or in part for any purpose whatsoever without obtaining prior written approval from the Department, with the Department retaining all intellectual property rights without restriction.

4.5 Award / Acceptance Conditions

The successful bidder will be notified of acceptance of its proposal through the issuance of an Award / Acceptance Notification.

4.5.1 Trade License Certificate

All Bidders shall submit a copy of their current Registered Trade License Certificate or Certificate of Incorporation.

4.5.2 Performance Bond

The successful bidder must submit a performance bond valued at 10% for proposals with a value of not less than AED 500,000.

4.5.3 Contracting

The bidder should ensure attaching the following documents with the bid.

- Commercial License
- Company Establishment Contract
- Company Profile
- A list of completed projects with contact numbers and the name of the responsible person
- Tax Certificate
- Bank Letter with bank account number address
- Power of attorney authorized to sign for the company
- Passport copy of the authorized signature

4.6 Technical & Financial Submittals

- In order for the Department to review and consider the proposal, the bidder must comply with providing all requirements in the submitted proposal. Failure to provide all requirements may result in rejection of the proposal.

- The bidder acknowledges that the information provided herein forms an integral part of its proposal and must be used in its preparation.
- The financial proposal must cover all required items, products, and services, must be unconditional, and must be valid for not less than 120 calendar days from the proposal opening date. Failure to do so may result in the proposal being disregarded.
- The declared cost must include all expenses, taxes, foreign exchange variations, inflation charges, etc. All tenders shall be within the United Arab Emirates. Currency: UAE Dirham only.
- The Department shall pay the amount due to the bidder under any issued invoice based on the contract terms within 45 working days from the date of submission of the invoice to the Department.
- Dubai Land Department urges potential bidders to link the invoicing schedule to the completion and acceptance of the specified deliverables set out in this RFP.
- Dubai Land Department applies Law No. (12) of 2020 regarding contracts and store management in the Government of Dubai.

5. Terms and Conditions:

5.1 Communication

All queries should be submitted via email to:

(To be completed by the requesting department)

<u>Tender Officer</u>	<u>With CC to Contracts Team</u>
Name: Huda Mohammad	Name: Contracts Team
E-mail: huda.alabed@dubailand.gov.ae	E-mail: contracts@dubailand.gov.ae

5.2 Authentication of the Submitted Proposal

All proposals must be executed by the bidder or its authorized representative. Where the bidder is a company, it must submit all legal documents related to the company. In addition, the bidder must provide evidence in the form of a notarized board/shareholders' resolution and a power of attorney authorizing the person(s) signing the proposal or any agreement submitted by the company.

5.3 Amendment of Requirements

Dubai Land Department reserves the right, at any stage of the submission period, to add, change, or amend its requirements. In such cases, Dubai Land Department shall notify bidders of such changes through an addendum and any time extension that may be granted for proposal submission.

5.4 Validity of Proposals

Proposals shall remain valid and binding on bidders for a period of one hundred and twenty (120) calendar days from the proposal opening date, with an extension clause subject to mutual agreement.

5.5 Conflicts of Interest

When selecting potential companies, consultants, and subcontractors, bidders must ensure that such service providers do not have any conflict of interest (whether actual or perceived) related to Dubai Land Department.
